

MFSAB

Engineered to Excel at Every Activity

For schools, every day and every trip is different. Knowing flexibility is the rule of the road, Collins developed an innovative, non-CDL multi-function school activity bus (MFSAB) that meets every need. Customers can choose between a Chevrolet or Ford bus that provides trusted performance, and Collins proprietary one-piece tubular roof design ensures safety is standard with every bus we build.

One Activity Bus for Every Road Ahead

Collins' non-CDL (14 passengers and under) activity bus is designed for flexibility and engineered to meet the demands of every trip. With the MFSAB, customers don't have to compromise on features by choosing one bus over another. With engineering that produces best-in-class maneuverability, design that puts storage where it's needed and alternative fuel options for cost-saving efficiency, the Collins activity school bus is ready for what ever journey lies ahead. MFSABs are available on Chevrolet, Ford E Series and Ford Transit chassis. All models are available with gas engines, and the Ford Transit is available with gas or diesel engines.

OUR VEHICLES CONNECT AND PROTECT
PEOPLE AROUND THE WORLD EVERY DAY.

● Standard Equipment

* Varies based on state and options selected

** Various passenger/wheelchair configurations available with a maximum of up to 6 positions

SAFETY & RELIABILITY

- Altoona tested simulating seven-years and 200,000 miles of wear
- Innovative structural design provides unparalleled safety and features a one-piece tubular roof bow design
- Industry's largest view-out window reduces blind spots and enhances visibility
- Collins exclusive external storage compartment
- Innovative electrical system offers easy-to-access service points
- 5-Year body warranty and limited lifetime paint warranty

CAPACITY & CONFIGURATION

- From 9 to 34 passenger capacity with up to 6 wheelchair positions
- Available with lap belts, 3-point belts, child restraint belts and activity seats

CHEVROLET & FORD E-SERIES

The narrow-body design of the single rear wheel model offers easy vehicle maneuverability and safety, consistent with a 15-passenger van, and the optional flat floor design of the dual rear wheel model offers a variety of floor plans allowing flexibility in seating configurations, and is available with special needs wheelchair options. The MFSAB on the Chevrolet single rear wheel is available as a High Top 76" and a Low Top 68" for your 15 passenger van replacement.

FORD TRANSIT SERIES

The Collins Ford Transit bus gives you greater efficiency from less fuel. The bus' narrow body maneuvers easily, even on the tightest roads. Better front-end visibility improves safety for drivers and up to 25* passengers. The Collins Ford Transit delivers all that, all covered by the best warranty in the business.

*Varies based on your state and the options selected.
